

RON GLASER Vice President of Preconstruction Services

With 30 years of experience in the construction industry, Ron has been able to perform an extensive range of management duties on a wide variety of projects and proposals. His experience includes providing a full range of preconstruction and construction services including estimating project costs and negotiating proposals. By working with owners, architects and engineers, he is able to evaluate and determine the most cost effective use of man power, materials, equipment and subcontractors for a variety of different types of projects. Ron earned his Bachelor of Science degree in Industrial Technology/Construction from Missouri State University in Springfield, Missouri.
