

DAN HUNYAR Vice President of Operations

Dan has over 35 years of experience in all aspects of the construction industry. He has worked in executive, project management, and engineering roles with much of his project history in commercial, hospitality, retail and industrial areas. In the past, Dan has worked for both contractors and developers giving him a unique view on every project. Seeing things from a different vantage point allows him to make the best decision for all parties involved. As vice president of operations, Dan has experience with construction projects in excess of \$250 million. Dan earned a Master of Science degree in Engineering Management and a Bachelor of Science in Civil Engineering from Missouri University of Science and Technology in Rolla, Missouri.
